PCR Test

For reservations, call [\(+81\)90-3900-3387](tel:+819039003387)

PCR tests are performed in a dedicated room. Please be sure to contact us by phone before coming to the hospital. So, you can come by the separate route away from the general patients.

If you would like to have a PCR test not covered by insurance (at your own expense), please contact us in advance. It is 25.000 yen (including certificate fee - Japanese/English). Since it is not a simple inspection, the test results will be announced the next day or later.

Once you have decided on the date and time of your visit, please print and fill in either the [insurance medical treatment](#) or [self-financed medical treatment](#) questionnaire and don't forget to bring the questionnaire on the date of the appointment. If you cannot print, please let us know. In that case, please fill in after coming to the hospital.
